

PNEUMATIC TIRES SOLVE PROBLEM OF MOTOR TRUCKS

A pneumatic tire for trucks is the answer to the problem that has confronted the motor vehicle industry in view of changed conditions due to the mobilization of the vast number of men making up the national army and war preparations generally.

The Goodyear Tire and Rubber Company of Akron, has solved the difficulty with their new cord tire, and have had in operation for many months a motor truck express service between their factory in Akron and Boston, Mass., running on these pneumatic tires. The service is kept to a schedule of seven days and enables them to get their product from the factory to their Eastern warehouses and the fabric from their Connecticut mills to the plant in Akron quicker than the same service could be done by the railroads.

The motor truck as a common carrier is now a fact, made so by these pneumatic cord tires. The tires had to be specially designed to meet the conditions imposed on the truck, had to be larger and stronger than on the passenger cars. After extensive experimentation such a tire has been constructed.

Motor trucks are coming into use in many kinds of service. They afford welcome relief from the freight congestion of the railroads. Wherever there are improved roads and even where they have not even been thought of, the motor truck will be found in operation.

The Goodyear cord truck tire carries a five to seven ton load with no more damage to the road than that caused by an ordinary touring car. The tire is sufficiently large to cushion the road, absorbing all the shocks before they reach the road surface and distributing the weight over a greatly increased section of it.

Officials of the National Woman's Party today made plans to vacate their quarters in Cameron House, "the little White House" on Madison place, following a special meeting of the Cosmos Club, which voted to purchase Cameron House and turn it into a club addition.

For several months National Woman's Party officials have realized that the end of their occupancy of the old Madison place mansion was near, and they have been scouring the downtown realty field for new quarters. At a meeting of the Cosmos Club last night a resolution was adopted to appropriate \$250,000 to cover the purchase of the building, and Milton E. Allen and G. E. Fleming were named as a committee to negotiate the purchase. The funds, it is expected, will be made over within sixty days.

MAKE YOUR MONEY FIGHT THE KAISER

(Copyright, 1917, by John T. McCutcheon.)

GEN. ALVARO OBREGON ON WAY TO WASHINGTON

SAN FRANCISCO, Oct. 2.—Gen. Alvaro Obregon, former Mexican secretary of war, was here today on route

to Washington. He denied that the visit to the National Capital had any significance. He stated he was going merely for pleasure, and to undergo treatment for his right arm, which was partly shot away several years ago in battle. He is accompanied by his bride of nine months.

SEIZE INDUSTRIES AND END THE WAR, WAS I. W. W. PLAN

CHICAGO, Oct. 2.—A nation-wide plot to paralyze industries, thwart military operations, obstruct conscription and cause America to lose the war, is divulged in the evidence upon which 169 members of the I. W. W. were indicted in Chicago. William D. Haywood, international secretary and treasurer, and Frank Little, who was lynched in Butte, Mont., are alleged to have been the ring leaders. Others frequently mentioned in the indictments are Ralph H. Chaplin, Richard Brazier, William Wiretois, James Rowan, Francis Miller and Charles L. Lambert.

About half the indicted men are now under arrest. Federal officials stated today. Search for the others is being carried on in all parts of the country.

Some of the most startling plans of the I. W. W. are contained in a book which Haywood sent to Duluth to be translated into Finnish.

"We are going to take over the industries some day for three very good reasons:

"Because we need them; because we want them; and because we have the power to get them." It was declared.

"Whether we are ethically justified or not is not our concern."

**NO EARLY BERMUDA
VEGETABLES FOR N. Y.**

There will be no fresh Bermuda vegetables for New York tables this winter. A delegation of Bermuda truck growers called at the shipping board offices in an attempt to secure transportation facilities to New York market were informed that it was exceedingly doubtful that any vessels would be available for this use this winter.

BETTER THAN CALOMEL

Thousands Have Discovered
Dr. Edwards' Olive Tablets
are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place. Most headaches, "dullness" and that lary feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists. A. E. V.

\$3,000 PROVIDED BY TIMES FRIENDS FOR SMOKE FUND

The Washington Times Tobacco Fund was given a vigorous boost today by personal contributions, collections in business offices and a Government bureau and the contents of more than a score of mite boxes which were robbed to add their treasures to the amount to be used for the purchase of smokes for American soldiers in France.

Clerks in the consular bureau of the State Department subscribed \$8 as their "bit" to help along the cause.

The members of the Builders' and Manufacturers' Exchange subscribed \$9.35 to the fund today. In the accompanying letter the members expressed the hope that "the smoke from the boys in the trenches from The Washington Times Tobacco Fund will be so thick that it will make Pittsburgh look like a bright day in June."

H. P. Owings made a second contribution to the fund today, making it a check for \$10 this time. He will receive cards from scores of grateful soldiers "over there," who will remember him as a real benefactor.

The mite boxes for the third time poured out their silver contents to add to the fund today. The boxes as usual were taken from stores, hotels, theaters, newstands, and offices in the downtown business section.

It is a wonderful scheme that has been worked out to bring the consolation of good smokes to the "boys over there." By a special arrangement with the American Tobacco Company, The Washington Times is enabled to send 45 cents' worth of tobacco for every 25 cents subscribed to the fund.

Contributions Thus Far.
Contributions thus far received to The Washington Times tobacco fund include:

Previously acknowledged \$2,951.24

Mite Box Collections.

Strand Theater	\$6.39
Affleck's Drug Store	3.00
Moore's Garden Theater	9.23
Raleigh Hotel	5.44
Gayety Theater	3.21
Riggs Buffet	3.19
Business office of Washington Times	4.08
Nat. Sav. Bank and Trust Co.	1.10
R. F. Keith's Theater	.28
R. P. Andrew's Paper Co., first box	.75
Penn. Garden Theater	32
Riggs National Bank	82
Hippodrome	5

The Washington Times Tobacco Fund passed the three thousand dollar mark today. To those who have contributed to the fund this piece of news must be especially gratifying. To those who have not as yet added their "bit" to the fund that will supply cheer to the boys "over there," it can be said there was never a better time to contribute than today.

Remember for every twenty-five cents you give to The Washington Times Tobacco Fund some soldier who is in France to help make the world safe for democracy will get these things:

A package of Tuxedo tobacco and four books of cigarette papers.

Three pouches of Bull Durham tobacco and three books of papers.

Two packages of Lucky Strike cigarettes, twenty cigarettes in each package.

A return postal card addressed to the contributor on which the soldier will pen his appreciation and gratitude for the gift.

**NATION'S JUNK TO BE
UTILIZED IN WAR WORK**

A round-up of miscellaneous junk and stray waste material was ordered by Secretary of Commerce Redfield today in all the branches of his department.

Thousands of pounds of copper and brass, and tons of old rope, formerly auctioned off to junk dealers for a song, will now be utilized in the war work of the nation.

ENGINEERS FROM CAPITAL REACH NEW JERSEY CAMP

HACKENSACK, N. J., Oct. 2.—The 501st and 502d Battalions of Engineers, of the new national army, about 300 strong, arrived at Camp Merritt, Tenafly, N. J., at 5 o'clock yesterday afternoon from Washington, D. C., where they left yesterday morning.

The two battalions comprise twelve companies, of about twenty-eight men each, all of whom were recruited from the American University at Washington. They represent nearly every State in the Union.

Camp Merritt is one of the only two embarkation camps on the Atlantic coast, the other being located at Newport News, Va.

The camp is under course of construction, and when completed will accommodate 20,000 men, who will rest there for a period of about two weeks before embarkation for France.

The camp may also be used as a receiving station for American boys wounded in France. One 500-bed hospital has been completed, and another is in the course of construction.

COLORED CHURCH OPENS BUREAU OF EMPLOYMENT HERE

Many colored women are seeking work in Washington today as a result of the drafting of the male bread earners of their families. To alleviate this condition, the colored Cosmopolitan Baptist Church, N street, between Ninth and Tenth streets northwest, has opened an employment bureau where colored help may be procured. All colored girls and women without employment have been urged to register as charwomen, maids, general houseworkers, cooks, and laundresses.

The bureau is in charge of the White Cross Association, which has been doing charitable work among the colored people here. The Rev. Simon P. W. Drew, president of the association and pastor of the church, said today that hundreds of applications have been received for work for men, but very few for women.

A public mass meeting will be held at the church on Thursday at 8 o'clock for open discussion of the employment question. The church is open every day between the hours of 9 and 5 o'clock, and help may be secured there or at the Rev. Mr. Drew's home, 1317 Corcoran street northwest.

We are showing a splendid line of designs and colorings in this excellent rug. The run of patterns is not unlike the finer grade Wilton, but the texture is somewhat lighter.

The sizes range from 18x36 to 14.3x15 feet.

Prices from \$2.75 to \$110.00

A Special Opening Offering of
25 Patterns 9x12 Wiltons, \$43.50

William J. Locke tells what war does to the super-civilized man

Young Trevor was rich. He lived alone in his English house filled with silks and embroideries. He designed wall papers. He collected porcelain dogs. He tied ribbons on his mandolins. When war was declared, his chief concern was that he and his fiancée would have to postpone remodeling his house because his architect, who was a Major of Artillery, had to go away.

He was having dinner with his cousin who wasn't his sort at all. The cousin started to scrape the ashes from his pipe with a dessert knife.

"For goodness' sake, don't do that! It makes cold shivers run down my back!"

"What will you do," asked the cousin, "when you see a fellow digging out another fellow's intestines with a bayonet?"

And what Trevor did when he faced that sort of thing—and worse—that makes William J. Locke's new novel "The Rough Road" which has just started to appear serially in GOOD HOUSEKEEPING.

You will want the October number because it has this latest work of a leading British writer. You will want it because it also

contains Eleanor Hallowell Abbott's serial "The Ne'er-do-Much" and short stories by Ellis Parker Butler, Dorothy Dix, Floy Tolbert Barnard and L. A. R. Wylie.

Yes, you will want these striking examples of GOOD HOUSEKEEPING's high standards of fiction. But you will want it too because behind this entertaining side of this magazine is a background of sound, substantial information and fact.

When you see GOOD HOUSEKEEPING on a news-stand today remember that there is one magazine which isn't content with froth and frills—that it gives you the best in stories, articles and features and then adds what no other magazine gives so fully, so richly—a great deep fund of daily usefulness and help.
